Additional Note: *Students are advised to purchase access to Adobe Creative Suite software for 2019, at special school pricing of \$50 per student – to be uploaded onto students' own devices.*

Device Recommendations - 2019

As a school we don't believe that mandating a particular device is necessary, and because individual student needs differ, this can be a complex question to answer. We do, however, suggest you consider carefully the following minimum specifications for a suitable digital device at Pukekohe High School:

- Wireless networking capability using 802.11g or n
- 5 hours of use from one battery charge
- Large screen (7.9 inches minimum) enough to work with documents in order to create and edit content
- The ability to run a web browser (e.g. Chrome, Firefox, Internet Explorer) that will allow it to access Internet and other learning resources
- The school will provide an account for Office 365 for all students. This can be installed on up to five devices and will give access to all MS Office 365 in a web browser or on their device.
- Touch screen and stylus capability
- Is lightweight, but robust enough to handle daily use
- Is in a protective carrying case
- Given the above guidelines we suggest you seriously consider using a **full function Windows laptop.**

Local and online suppliers are aware of our recommendations and will help you choose the right device for your student, its use at school and your budget.

Important Note:

Chromebooks are not a suitable device at Pukekohe High School. Please see our website for the explanation for this.
